alcoholic liver disease
  carbohydrate-deficient transferrin in 174
  Japanese national survey of 509
alcoholism
  relationship between carbohydrate-deficient transferrin and liver disease in 174
ALD *see* alcoholic liver disease
alpha-fetoprotein
  secondary prevention of HCC by screening for (Review Article) 683
analgesics
  as a risk factor for ulcerative reflux oesophagitis 306
antibodies
  in primary biliary cirrhosis and recombinant centromere protein B 438
antibodies, anti-tumour
  use of anti-MUC3 peptide antibodies to produce 555
anticolon antibodies, human
  immunoglobulin G subclass distribution in ulcerative colitis of 158
antioxidant enzymes
  mucosal levels in ulcerative colitis 140
ascites
  chemotaxis of granulocytes in cirrhosis influenced by 186
  diagnosis and differentiation between cirrhotic, malignant and tuberculous 295
Atkinson prosthesis
  morbidity and mortality rates associated with palliative treatment using 56
Barrett's oesophagus
  and *H. pylori* 331
basic fibroblast growth factor
  acceleration of gastric mucosal restoration *in vitro* by 627
bFGF *see* basic fibroblast growth factor
bile salts
  induction of release of glycoproteins from guinea-pig gall-bladder by 42
bile salts, hydrophilic
  cytoprotective activity of 42
bile salts, hydrophobic
  membrane damage caused by 42
bile acid
  depolarization of mitochondrial membrane by 621
biliary cirrhosis
  high prevalence of antibodies to recombinant centromere protein B in 438
blood supply
  to minimum-sized HCC 498
bone marrow, transplantation
  complication by liver disease of 1
Brucella melitensis
  acute pancreatitis in a patient infected with (Case Report) 691
brucellosis
  acute pancreatitis associated with (Case Report) 691
brush border hydrolase
  influence of dietary fibre on activity of 324
Budd-Chiari syndrome
  due to pacemaker thrombosis (Case Report) 355

C-K-ras gene
  mutation in colorectal carcinoma of 70, 119
carbohydrate-deficient transferrin
  relationship with ALD 174
carbon tetrachloride
  effect on plasma kallikrein clearance after chronic treatment of rats with 165
carcinoembryonic antigen
  early detection of recurrence of pseudomyxoma peritonei using 86
CD34
  small HCC endothelial cell expression of 650
cell culture
  in vitro infection of human hepatocyte cell lines with HCV 523
centromere protein B
  primary biliary cirrhosis and high prevalence of antibodies to 438
chemosensitivity test
  for repeated arterial infusion chemotherapy by resevoir for unresectable HCC 446

chemotaxis
of granulocytes in patients with cirrhosis 186
chemotherapy
chemosensitivity test in unresectable HCC for repeated arterial infusion 446
cholecystectomy, laparoscopy
pre-operative risk factors and postoperative complications in the elderly 517
cholecystokinin
role in normal and neoplastic gastrointestinal growth of (Review Article) 215
cholesterol
measurement in ascitic fluid of 295
chopsticks
oral–oral transmission of *H. pylori* via use of 562
chronic hepatitis *see* liver disease
cirrhosis
diagnostic differentiation between cirrhotic and non-cirrhotic ascites 295
effects of enalaprilat on portal hypertension in patients with 256
effects of nifedipine on hepatic venous pressure gradient and portal vein blood flow in patients with 198
influence of ascites on the chemotaxis of granulocytes in patients with 186
in vitro fertilization and pregnancy in a patient with chronic active autoimmune hepatitis and (Case Report) 233
non-invasive evaluation using ^{99m}Tc-MIBI of portal hypertension in 169
treatment of bleeding duodenal varices in (Case Report) 481
see also liver disease
cirrhosis, post-hepatic
effects of propranolol and clonidine on portal hypertension in patients with 281
clinicopathology
of minimum-sized HCC 498
clonidine
effect on portal hypertension in post-hepatic cirrhosis of propranolol and 281
colonoscopy
screening for colorectal cancer using 319
colorectal carcinoma
C-K-ras and *p53* gene mutation in tumourigenesis of 119
tumourigenesis of 70
see also non-polyposis colon cancer
colorectal cancer
screening of first degree relatives (Editorial) 337
use of colonoscopy to screen first degree relatives of patients with 319
cystic lymphangioma
of the gall-bladder (Case Report) 693
cytotoxic T cell
α-IFN treatment to reduce activity of 24
cytotoxicity
of sodium taurocholate in gastric mucosal cell culture 621

deoxythymidine kinase
increased activity during liver regeneration of 655
des-γ-carboxy prothrombin
excessive production by HCC of 8
diet
modulation of colonic mucosal urokinase activity in rats by 324
dietary fibre
influence on mucosal urokinase and brush border hydrolase activity, and epithelial turnover in rats 324
digestive disorders *see also* liver disease, gall-bladder, intestinal infections, gastrointestinal disease
dihydrolipoamide dehydrogenase
liver histology in mice after immunization with 491
duodenal varices, bleeding

duodenal ulcer *see* ulcer, duodenal
dyspepsia
in Japanese employees with and without ulcer history 633

elderly patients
pre-operative and postoperative complications of laparoscopic cholecystectomy in 517
emphysematous gastritis *see* gastritis, emphysematous
enalaprilat
haemodynamic effects on portal hypertension in HBsAg positive cirrhotic patients 256
endothelial cells
CD34 expression in HCC by 650
epidemiology
of HCV genotypes in Japanese patients with type C chronic liver disease 538
epithelial turnover, gastrointestinal
effect of dietary fibre in rats on 324
epithelioid granulomas *see* granulomas
ethanol
cytoprotective effect on gastric mucosal cells *in vitro* by 621
ethinylestradiol
hepatoprotection by tauroursodeoxycholic acid, but not ursodeoxycholic acid in rats treated with 261

familial juvenile polyposis *see* juvenile polyposis
family history
as a risk factor for ulcerative reflux oesophagitis 306
family history, of colorectal cancer
role of colonoscopy in the screening of people with 319
screening of first degree relatives (Editorial) 337
figure correction test
diagnosis of subclinical hepatic encephalopathy using 14
food practices, ethno–specific
risk factors in transmission of *H. pylori* 562

gall-bladder
cystic lymphangioma of (Case Report) 693
occurrence in Aboriginal adults in Western Australia of diseases of 313
gallstones
study of composition by polarizing microscopy of partially dissolved powder 241
sonographic patterns for predicting successful shock-wave lithotripsy for 426
gap junctions
restoration after ethanol-induced gastric mucosal injury in the rat 589

in regenerating mucosa (Editorial) 602
gastric acidity
secretory and biosynthetic response of gastrin and somatostatin to acute changes in 405
gastric cancer

gastritis, emphysematous
secondary to acute gastric dilatation (Case Report) 612
gastrointestinal disease
occurrence in Aboriginal adults in Western Australia of 313
gastrointestinal function
sulphation of proteoglycans and (Editorial) 210
abdominal irradiation for seminoma and effects on 125
gastrointestinal neoplasms *see* neoplasms, gastrointestinal
gastrointestinal transit
effect in rats of pregnanacy and uterine weight on 585
gene, *C-K-ras*
mutation in colorectal carcinoma of 70, 119
gene, *p53*
mutation in HCC of 179
mutation in colorectal carcinoma of 119
overexpression in HCC of 250
genes
causing predisposition for hereditary non-polyposis colon cancer 76
polymorphism of retinoblastoma in HCC 179
role of *C-K-ras* mutations in colorectal carcinoma tumourigenesis 70, 119
glucuronide
intestinal absorption in rats of 383
glutathione peroxidase
activity in ulcerative colitis 140
glutathione reductase
activity in ulcerative colitis 140
glutathione transferase
activity in ulcerative colitis 140
glycoproteins
release from guinea-pig gall-bladder induced by bile salts 42
γ-glutamyl carboxylase
activity in HCC 8
